

I am a resident of the state of Indiana. I have been registered on the Indiana No Call List since it was was put in place. I also registered on the Federal No Call List. The amount of unwelcome telemarketing calls dropped off dramatically and life at home has been so more enjoyable. As a citizen of Indiana and the USA, I feel that my right to privacy and the ability to opt-in or opt-out from receiving telemarketing calls is extremely important. Do NOT weaken the Indiana No Call List. Do NOT allow the Consumer Bankers Association to lobby for weakening the Indiana No Call List. Please put the wishes and rights of the people before the wishes of business. Thank you in advance for your help in protecting our home lives from unwanted telemarketing calls.
